MINT **ERROR** NEWSTM MAGAZINE

Bringing the latest mint error news to the collector.

Mike Byers, Publisher & Editor, Welcomes You!

Welcome to Mint Error News Magazine, bringing the latest mint error news and information to the collector. This is our seventh year bringing you both an online PDF magazine and the Mine Error News website. It is an exciting time for mint errors. We are proud to feature the world's most valuable mint error on the cover of this issue and are thrilled to announce the release of Mike Byers' new mint error book, World's Greatest Mint Errors.

There are now over 900 articles, features, discoveries, news stories with mint error related info from the United States and around the World. Our website, minterrornews.com, has become the most popular and informative Internet resource for mint errors and is read by thousands of dealers and collectors.

BYERS NUMISMATIC CORP
MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™
U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

Mike Byers (mikebyers.com) has been a Professional Numismatist since 1978. He is the largest dealer of the world's rarest mint errors. He specializes in U.S. and World Major Mint Errors and Die Trials. His new discoveries of major mint errors have been front page news for years. He is a life member of ANA since 1985, a charter member of NGC and a featured dealer/member of PCGS. He is a founder member of the California Coin & Precious Metals Association. He is also a life member of the Central States Numismatic Society and the Florida United Numismatists. He is member A71 in the Certified Coin Exchange (CCE). Mike Byers was a Consultant for ANACS for Mint Errors from 2000 through 2006.

Allan Levy has been specializing in Mint and Currency Errors for 25 years. His website features a diverse group of type errors, modern errors and major currency errors. He also handles regular U.S. and World coins. Allan Levy is a member of CONECA and the American Numismatic Association.

Fred Weinberg & Co.
Dealer in Major Mint Error Coins & Currency
fredweinberg.com

Fred Weinberg is the President of Pacific Rim Numismatics (DBA Fred Weinberg & Co.). He is a highly respected numismatist, with 35 years of full time experience in the rare coin marketplace. His professional associations include the American Numismatic Association (ANA) (38 years), the Professional Numismatist Guild (PNG) (31 years), The Industry Council for Tangible Assets (ICTA) (21 years) and The Numismatic Literary Guild. He is a past President of the Professional Numismatist Guild (1999-2001).

Mint Error News is sponsored by Mike Byers and several other mint error dealers including Allan Levy (alscoins.com) and Fred Weinberg (fredweinberg.com). Additional sponsors are Heritage Auction Galleries, CoinLink, CoinFacts.com, uspatterns.com and errorworldclub.org. We encourage collectors and dealers to submit articles and photos of major mint errors that we may feature on the website.

Off-Center Mint Error Sales

by Al Levy (alscoins.com)

Off Center Market: Lincoln Wheatback Cent

Collectors are aware that most of these dates are nearly impossible to find. They are willing to substitute off-centers with broadstrikes or partial collars. It is not unusual to find these error types mixed within a collection. The collector will purchase these dated error type that fill the void in their collection. Some dates take decades before one shows up for sale.

Scan through the back issues of Mint Error News to look up prices realized for the early Lincolns.

The closer to the 50% off-center with a full date and mintmark, the more money is paid. The color of the coin is a major price factor. Almost each quarter 1956-D and 1957-D are sold on eBay. See how many of these dates sold that were 50% off-center with a full date and mintmark that were fully red.

Reader of my charts must understand that some of the listings on eBay may have been overlooked. This is a guide only. What if the previous reported sale price sold because the seller listed it as a "Buy it now"? Or,

the lot was misdescribed? There are numerous factors to consider when reading charts. One major thing to consider is my charts show coins sold exclusively on eBay.

The date collector knows the true market for error types. They do not follow coins sold on eBay exclusively. They frequent shows. Subscribe to most auction catalogs. Solicit error dealers with their want lists. Many times these collectors accept coins in which the percentage of off center is minor since this is all that is available.

Here are records of recent sales of off-center mint errors on eBay from October 1, 2009 to December 31, 2009.

1. All lots had buyers. If the coins actually changed hands is unknown.
2. A picture accompanied each lot or it was not recognized.
3. Mislabeled items were ignored.
4. Some lots may have changed hands more than once.
5. "D" next to the date symbolizes that the coin had damage or was scratched.
6. "C" next to the date symbolizes that the coin was cleaned.
7. "B" next to the date symbolizes that the coin had damage and was cleaned.
8. If the date or mint mark was missing or partially visible, parentheses were used.
9. Postage/handling/insurance fees were ignored.
10. Major auctions were not listed.

NORTHEAST NUMISMATICS INC. RARE COINS · PERSONAL SERVICE

Northeast Numismatics has a million dollar plus inventory of over 3,500 certified United States and world coins. We carry every area of U.S. coinage from colonials through rare gold including proof and mint state type, commemoratives, silver dollars and much more. We also offer an extensive inventory of world coins.

Northeast Numismatics
10 Concord Crossing, Ste. 220
Concord, MA 01742
800-449-2646
www.northeastcoin.com

High quality "fresh" coins are what we are known for and take pleasure in offering. We constantly are hearing from our customers about our excellent prices and high customer service. 2003 is our 39th year of business, so order with complete confidence. Also, please keep in mind that we are always buying coins of all kinds, certified and uncertified, to fill our want lists.

Double Denomination & Off-Metal Mint Error Sales

by Al Levy (alscoins.com)

One of the most popular error types are double denominations. The high end “common dates” graded over MS66 have dropped in price. However, the sellers are still not willing to reduce their ask prices. Collectors need to realize that for some dates and mintmarks only a handful are known to exist. Eye appeal will generate a higher price paid than a grade. When a new seller lists this error type and does not utilize quality

pictures or descriptions, they sell for a fraction of their real value. My charts reflect this decrease. This does not mean prices dropped. It means the buyer may be able to turn a quick profit by reselling it. Keep in mind that eBay sales are a small fraction of the true error coin market. Dates, mintmarks and grading services all make a difference in value. Read over my notes to help you decipher the real market.

Here are records of recent sales of off-center mint errors on eBay from October 1, 2009 to December 31, 2009.

1. All lots had buyers. If the coins actually changed hands is unknown.
2. A picture accompanied each lot or it was not recognized.
3. Mislabelled items were ignored.
4. Some lots may have changed hands more than once.
5. “D” next to the date symbolizes that the coin had damage or was scratched.
6. “C” next to the date symbolizes that the coin was cleaned.
7. “B” next to the date symbolizes that the coin had damage and was cleaned.
8. If the date or mint mark was missing or partially visible, parentheses were used.
9. Postage/handling/insurance fees were ignored.
10. Major auctions were not listed.

DESCRIPTION	GRADED	SOLD	OBSERVATION
DOUBLE DENOMINATIONS			
1988-(?) STRUCK CENT ON A STRUCK DIME	BU	\$860.00	2ND STRIKE 90 DEGREE CW TURN. CENT DATE.

1996-P STRUCK CENT ON A STRUCK DIME	BU	\$611.06	2ND STRIKE FLIPOVER. BOTH DATES & MM SHOW.
2001-P STRUCK CENT ON A STRUCK DIME	ANACS 65	\$460.05	2ND STRIKE FLIPOVER? NO CLOSEUP PICS OF COIN. DETAIL REMAINED FROM 10c BUT COULD NOT MAKE OUT MUCH.

Double Denomination & Off-Metal Error Sales

There are date collectors for off-metals. Completing this may not be possible. For the collector that has been looking for specific dates to come on the market may have been waiting for decades. So, it is not unusual to see an MS64 example sell for the same price as an AU55. If you do not stretch for this coin, it may not show up on the market for another decade.

Off-metals have a very high eye appeal. Cents struck on dime planchets have always peaked collectors interests. Same with nickels or quarters struck on cent

planchets. Check out the price variance between an example that sells that has a brown color to one that is a full red. The red coin may bring twice the price due to EYE APPEAL!

Check out the price realized for the 1c/10c 1919. It is damaged and graded net “good details!”

Multiple errors on off-metals are highly desirable. There may only be one example of an off-metal struck off center. Or, double struck plus off-metal.

Double Denomination & Off-Metal Error Sales

Common are the 25c 1970-D on 10c stock planchet. Try and find examples for other years or on other denominations. These are very under rated and under valued error types. Some collectors hope to determine

that these errors are actually struck on a foreign blank. The problem with eBay, there are many coins being sold as off metals, off stock. Please refer to my chart on "Counterfeits/Questionable errors."

Clad Layer Split-Off Mint Error Sales

by Al Levy (alscoins.com)

“Clad layers off” are very popular due to the statehood quarter issues. There are a few collectors trying to complete a type set of obverse and reverse. This inflates the market on a temporary basis. Once the hole in their collection is filled, additional examples sell for way less. If the coin shows a red copper color, it will bring a very high price compared to a brown. Buyers on eBay

must be careful when trying to purchase these by scan only. Some pictures have been doctored and the sellers do not grade or describe these coins. Therefore, the information listed below may not be 100% accurate. The buyers must ask questions prior to bidding. Such as: What is the weight? Is the color natural?

Here are records of recent sales on eBay from October 1, 2009 to December 31, 2009.

Buffalo Nickel “Speared Bison” & Wisconsin Quarter “Extra Leaves”

by Al Levy (alscoins.com)

An important observation about 5c “Speared Bisons” and the 25c Wisconsin extra leaf errors sold on eBay. There is little to no demand for the “Bison” errors from collectors or dealers at major conventions. The demand for these on eBay are way down in price. There were many auctions listed but failed to attract any bidders.

The Wisconsin leaf errors have dropped in price substantially. Unlike the “Speared Bisons”, there are collectors and dealers asking for these varieties at conventions. Check out the new prices realized below, then compare them to an older price guide.

Here are records of recent sales on eBay from October 1, 2009 to December 31, 2009.

The Society of U.S. Pattern Collectors is dedicated to the study of many of the rarest coins struck at the U.S. Mint: patterns, die trials and experimental pieces.

Waffled Coin Sales

by Al Levy (alscoins.com)

Waffled coins. These are a very interesting type. The grading services will body bag coins damaged or cleaned. However, if the Mint waffles them, they show up holdered an even graded. Now that more “bins” have been bypassing the smelters pot, prices have really been dropping. There are collectors trying to

put together complete sets of the statehood quarters. Last quarter a rumor circulated that more bins full of “Red Tanks Marked - Sweeps” became available on the market. Looks like it came true. One reason there are so many of the “webbings” available. Bowtie scrap is being sold by the pound.

Here are records of recent sales on eBay from October 1, 2009 to December 31, 2009.

2 Feather Buffalo Nickels

by Al Levy (alscoins.com)

Buffalo nickel “Two Feather” varieties. Cherry pickers are still able to find these at shows or in dealers stock. Most in average circulation sell for a small percentage

over non error retail. However, high grades bring a nice premium.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

Blank Planchets

by Al Levy (alscoins.com)

Blanks are very popular. But, buyer beware. Many of the blanks selling on eBay are of foreign stock. The Mexican 50 Pesos is a good example as it resembles a USA half dollar. There are being marketed as 90% silver blanks.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

DESCRIPTION	GRADE	PRICE	ADDITIONAL INFORMATION

Rotated Reverse

by Al Levy (alscoins.com)

Most rotated reverse errors listed on eBay the seller fails to mention the percentage of rotation. Most times, no mention if they are clockwise (CW) or counterclockwise (CCW). The grading services omit the same information on their labels. I mention this

since 50% of the coins tracked are an estimate. The most desirable rotated coins are the Morgan and Peace dollar series. These bring very strong prices. Two cent pieces are the opposite, as they are very common in degree of rotation and are easily found.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

Double Struck Double Dated

by Al Levy (alscoins.com)

A very underrated error type is the double strikes with two full dates and mintmarks. Only recently have these error types been bringing strong prices. Not only are they rare, but the coins have a special eye appeal. Find

a Lincoln cent that is a fully red flipover, in which the date and mintmark shows on both sides. Watch what the coin sells for.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

Other Sales Worth Mentioning

by Al Levy (alscoins.com)

This group of coin/currency errors may not fit into a specific category. Some are the ones listed in books but pricing is absent or out dated. Others are unique errors or multiple errors that are rarely sold. This chart is to try and help the reader find comparable error coins to figure pricing.

I have grouped the errors below in denomination and date order to make it easier for the reader to find what they may be looking for. If coins of errors/varieties are listed on the Greysheet, they will not be found here. Exceptions are coins found in proof/mint sets.

Coins removed from the set then sold individually are worth tracking. Some new varieties may be listed. Others have sold exclusively on eBay and are worth mentioning.

Please read my notes associated with the listings. Prices realized could be valued differently if the picture was fuzzy, the description was improper, or planchet problems were omitted. The seller could have listed them in the wrong classification or simply misstated what was being sold. Please note: I am trying to emphasize that this is only a guide.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

DESCRIPTION	GRADE	PRICE	ADDITIONAL INFORMATION
1c 1873 DOUBLED LIBERTY	ANACS 61 BRN	\$959.00	CL 3, (FS#009.1), SNOW-2, DOUBLED DIE OBVERSE.

Counterfeit & Questionable Errors

by Al Levy (alscoins.com)

There are so many questionable coins being sold on eBay. There is not enough time to list each transaction. Nor, do all of them rate being listed. This grouping are lots sold for over \$9.99. The main reason is that reputable coin collectors and dealers do not mind spending a small price to have a few on hand as

comparison pieces. Or, they fit into a type collection. These coins I consider as cousins to the "Waffled coins". Some are neatly done. Others are made to fleece the collector. But like most collectibles, people buy them for whatever reason. Some nice counterfeits bring strong prices.

Here are records of recent sales on eBay from July 1, 2009 to December 31, 2009.

DESCRIPTION	GRADE	PRICE	ADDITIONAL INFORMATION
1c 1837 LARGE CENT STRUCK ON HALF CENT	ACID TREATED	\$43.70	VERY THIN BLURRED PLANCHET. 200396550637

Presidential Dollar Mint Error Sales

by Al Levy (alscoins.com)

Missing edge lettering: The George Washington dollars have dropped in value since my last report. John Adams dollars have remained the same. The double edge lettering John Adams dollars are changing hands at last quarters' prices. PCGS and NGC prices dropped slightly. Raw examples remain the same. A few Satin Finish examples have shown up on eBay. Various other Presidential smooth edge dollars that are Unc and (SMS)

satin finish are being offered. These Satin Finish examples are found in Special Mint Sets that are suppose to be scrutinized by the mint employees at each process. Known quantities are listed elsewhere in this magazine. Partial edge lettering and weak edge lettering errors have all gone down in price. This includes the ones found in (SMS) special mint sets.

Here are records of recent sales on eBay from October 1, 2009 to December 31, 2009.

NGC Certifies A Peace Dollar Double Struck With 2nd Strike 80% Off-Center

by Mike Byers

Double Struck Peace Dollars are extremely rare and are highly coveted by mint error collectors and dealers. This exciting double struck mint error has a second strike that was 80% off-center.

The positioning of the second strike, as well as the design that shows (part of the face and neck) makes this Peace Dollar as visual and dramatic as ever.

There is no design on the reverse of the second strike since a blank planchet was in the collar between this coin and the reverse die.

NGC recently certified and graded this coin, which was in a major collection for many years. It has since changed hands and has been placed in another collection of spectacular and unique major mint errors.

Misdated Presidential Dollar Excites Error Collectors

by NGC (ngccoin.com)

NGC recently authenticated a 2009 D Zachary Taylor Presidential \$1 coin bearing the date 2010 D on its lettered edge.

NGC has certified a Zachary Taylor Presidential \$1 coin that bears the date 2010 D. The Zachary Taylor coin was the fourth Presidential dollar released in 2009 and should correctly bear the date 2009, not 2010. This is the first time that the wrong date has been reported on an edge-lettered US dollar.

The date on each Presidential \$1 coin appears on its edge and is applied by an edge lettering die after the obverse and reverse are struck with a blank collar. Because edge lettering is an additional and subsequent step, it has been the source of several types of novel mint error coins. Most common among these errors is partial edge lettering, which occurs when a coin gets hung up in the edge lettering machine and part of the edge lettering is not impressed. Another error is missing edge lettering; that error occurs when a coin misses the edge lettering step entirely. A third error type that has been encountered is doubled edge lettering, which is created when a coin passes through the edge lettering machine twice.

While there are many possible explanations for how this incorrect date error may have occurred, its

story is seemingly revealed by the coins that accompanied it. This error coin was included in a roll of 2010 D Native American \$1 Coins

that were purchased using the US Mint's Direct Ship Program. Since only this lone Zachary Taylor \$1 was found in the roll, one can

Misdated Presidential Dollar Excites Error Collectors

speculate that the same machinery was used to strike 2010 D Native American dollars after completing a run of 2009 D Zachary Taylor dollars. A coin was left behind somewhere between striking and edge lettering became mixed with Native American dollars headed for the edge lettering process, and was thus inscribed with the wrong date.

Because of where this coin was found, it does not suggest that a large run of error

coins were made and, therefore, this type of error coin may remain a significant rarity.

The authentication process was overseen by NGC special consultant and mint error expert, David J. Camire, who comments on the significance of this discovery: “The

error coins that result from a cross pollination of Presidential dollars and Sacagawea or Native American dollars are unquestionably some of the most exciting error coins coming out of any mint today. Not only do they provide unique insight into the production process of the Mint, but they emerge in unexpected ways and in incredible discoveries. We

had long speculated that an incorrect date error might be found, and we’ve been waiting three years for it!”

Misdated Presidential Dollar Excites Error Collectors

Side-by-side comparison of the 2010-dated Zachary Taylor \$1 with a 2009-dated example.

New From Krause Publications: Strike It Rich With Pocket Change *Error Coins Bring Big Money*

by Brian Allen & Ken Potter
NEW Second Edition

This is the long awaited second edition to this Numismatic Literary Guild Award Winning book! It covers important die varieties and errors known on United States coins from cents through dollars that can still be found in pocket change! It is the most in-depth work of its kind covering, doubled dies, repunched mintmarks, over mintmarks, abraded die varieties, mules, counter clashes, transitional errors, rotated reverses, edge lettering errors on Presidential dollars, die design changes, striking errors, planchet errors, etc. Expanded to include 50 more pages than the first edition, it spans 320 pages with over 800 photos show-

ing you where to look and what to look for on every single variety coin listed. It contains important information including updated values of the coins and important cross reference listing numbers to the most

popular listing services out there. It also contains important chapters on worthless forms of doubling often confused with valuable types of doubling, grading coins, tools of the trade, coin preservation, a treatment on minor varieties, a chapter on common myths associated with error-variety coins, how to buy and sell, finding States Quarter Errors and Varieties, terms and definitions, recommended reading, joining clubs and more!

Visit <http://koinpro.tripod.com/books.htm> for more information.

NGC Error Coin Gallery

By Dave Camire (ngccoin.com)

Here are the U.S. State Quarter mint errors that can be viewed on the NGC website. State Quarter mint errors are very popular with collectors. They collect different types of mint errors and different states in the series.

1964 Double Denomination Errors

by Dave Camire (ngccoin.com)

Double Denomination U.S. mint errors are very popular and in great demand by mint error collectors. Here is a trio of 1964 Quarters, struck on a struck Nickel, Cent and Dime. They are all in gem condition and show much detail of the understrike.

Double Struck 1884-CC Silver Dollar

by Mike Byers

Major Morgan Dollar mint errors are rare. This double struck 1884 Silver Dollar is from the Carson City Branch Mint. Having a combination of rarity (Morgan Dollar), type of mint error (Double Struck) and where it was struck (“CC” Carson City Branch Mint) is phenomenal.

It was sold by the U.S. GSA office in the 1970’s, when the U.S. Government released and sold a hoard of Silver Dollars. Although still in it’s original

GSA holder, NGC has certified and graded it “Double Struck 1st Strike 25% Off-Center, Mint State 63 PL.” The first strike was 25% off-center. The second strike was seated properly in the collar and received a normal strike. Although some of the original off-center strike was obliterated, upon close examination, much detail remains on both sides.

Major Carson City mint errors are among the most desired and valuable U.S. errors.

STOLEN: 1922 \$20 ST. GAUDENS DIE ADJUSTMENT STRIKE

Editor's Note: This mint error was recently stolen. It sold in a Heritage Galleries Auction and was purchased by Ron Karp of New York Gold Mart. If you see or hear anything about this mint error, please contact Mike Byers, the Publisher and Editor of Mint Error News, or Ron Karp of New York Gold Mart.

Heritage Auction Description:

Die Adjustment Strike on a 1922 Double Eagle

1922 \$20 Saint-Gaudens Double Eagle--Die Adjustment Strike--NGC. The NGC insert omits a grade, but we suggest MS63 or finer, since practically all of the wispy abrasions present on the coin were on the planchet prior to the strike. Weakly brought up on the high points and along the borders. Nonetheless fully lustrous, and free from the bagmarks that plague nearly all survivors repatriated from foreign bank holdings.

STOLEN: 1922 \$20 ST. GAUDENS DIE ADJUSTMENT STRIKE

NGC Certifies Standing Liberty Quarter Struck On A Cent Planchet

Editor's Note: NGC just certified this Standing Liberty Quarter struck on a Cent planchet. Major Standing Liberty Quarter errors are extremely rare. It was recently recovered along with a group of rare mint errors from the Mark Lighterman Collection. For more info on the stolen and recovered coins, as well as a list of what was recovered and still missing, refer to the 29th issue of Mint Error News Magazine.

CONECA

The Combined Organizations of Numismatic Error Collectors of America

CONECA is a national numismatic organization devoted to the education of error and variety coin collectors. CONECA focuses on many error and variety specialties, including doubled dies, Repunched mintmarks, multiple errors, clips, double strikes, off-metals and off-centers -- just to name a few. It publishes an educational magazine, The Errorscope, which is printed and mailed to members bimonthly. CONECA offers a lending library, examination, listing and attribution services; it holds annual meetings at major conventions (referred to as Errorama) around the country, and offers auction services to its members. Please visit conecaonline.org and enjoy!

CONECA Variety Attribution Services

CONECA offers two attribution services. One service enables members and non-members to send their coins directly to an authorized CONECA attributer. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins attributed by a CONECA attributer and then graded and slabbed by ICG.

CONECA Error Examination Services

CONECA offers two examination services. One service enables members and non-members to send coins to an authorized CONECA examiner who will return an opinion of each coin's error classification. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins examined by a CONECA examiner and then graded and slabbed by ICG.

BYERS NUMISMATIC CORP

MIKEBYERS.COM

The Largest Dealer of the World's Rarest Mint Errors™
U.S. & WORLD MAJOR MINT ERRORS • DIE TRIALS • NUMISMATIC RARITIES

Consign Your Coins to mikebyers.com

Terms and Conditions

We are offering this service for error collectors and dealers alike. In order to post your item on our website you must agree to the following terms and conditions.

1. All major U.S. mint errors are accepted if they are certified by PCGS, NGC, ICG or ANACS.
2. The approximate value of each item must exceed \$5,000.
3. Each item must meet our inventory criteria in terms of desirability and market value.
4. Byers Numismatic Corp charges a 10 % commission for each sale.
5. The minimum time for any listing is thirty days.
6. Seller agrees to a seven day return privilege from date of receipt.
7. Seller agrees to use an escrow service if requested by the buyer.
8. We reserve the right to deny or cancel any listing at any time.
9. All listing are subject to prior sale.

Please do not offer us the following:

1. More than two coins bonded together.
2. Caps more than ½ inch high.
3. U.S. Errors that were obviously and intentionally struck as error coins. No impossible mint errors.
4. We only accept consignments of U.S. Errors that were legitimately released through normal distribution channels.

Scanning Specifications

1. Scan both the obverse and reverse of the entire holder.
2. Scan with a resolution of at least 300 dpi.
3. Save the picture in jpeg format (jpg).

Information Requirements

In addition to e-mailing a photo of your item, please include the following information:

1. Name, Address & Phone Number
2. E-Mail Address
3. Asking Price

After your item is listed, we will contact you by e-mail with any offers and questions. Once a price is agreed upon we will handle the entire sale for a 10% transaction fee, which includes all costs (eBay fees, grading fees, webmaster charges, postage and registration fees, insurance, paperwork, etc.).

If you have a Mint Error collection for sale or would like to sell your duplicates and do not want to consign your coin(s), we can purchase your entire collection outright. Please contact us at mike@mikebyers.com.

ANACS is the Collector's Choice because we know what counts: knowledge, integrity, and service. How much we value coin collecting is evident in our work.

The ANACS team enthusiastically works to advance coin collecting by offering unequaled expertise and developing new services.

This makes ANACS the choice of hobbyists, professional numismatists, and dealers. We are the coin grading service to contact when you want to know all the details about your coin's authenticity and grading.

Mint Error News Price Guide

This price guide is brought to you by Mint Error News. It has been compiled by many of the top major mint error dealers.

This price guide is a guide. Prices fluctuate due to the date, grade, eye appeal and how dramatic the striking error is. Rarity is also a factor. The price is sometimes based on the rarity and grade of the type of coin as well as how rare the error is. The price can also vary depending on whether two collectors are bidding for the same rare major mint error. When purchasing a mint error, it is important to use multiple resources to determine value, as there are many mint errors that do not fit into one category.

Proof Errors

Proof coins are struck by technicians who hand feed the blanks into special presses. They are produced, examined, and packaged using extreme quality control. It is very unusual to find major proof errors. A few broadstrikes, off-centers, double strikes in collars and off-metals have been known to be found in sealed proof sets. Proof errors are aggressively sought after by many error collectors.

A very small group of Proof errors recently came from a collection that was auctioned by the State of California. The U.S. Secret Service inspected and released this collection to the State of California determining that it was legal to own. The State of California then auctioned the collection and it has been dispersed since the sale.

Denomination	Broadstrikes	Die Trials	Double/Triple Strikes	Off-Center Strikes	Partial Collar Errors

Mint Error News Price Guide

Broadstrikes

A broadstruck error occurs when a coin is struck without the collar to form the rim and edge that is part of the shape of the coin. Coins can be broadstruck on either type one or type two planchets. When a coin is broadstruck the blank being fed into the collar will spread and distort outward as it is being struck because the collar isn't in the correct position to retain it.

Partial Collars

Partial collar strikes occur when there is a malfunction of the striking press. This causes the collar to be in an incorrect position. The lower die (usually the reverse die) is recessed in the collar. This allows the coin which is going to be struck to have a formed rim. After a coin is struck the lower die raises upwards, pushing the struck coin out of the collar and ejecting it. If a blank entering the collar is not properly seated, it will only have partial reeding as it is struck. The edge of this coin will have a partial reeding and a partial blank surface area. Recently, the Mint has installed new machinery where either die can be installed in either position.

Uniface Strikes

Uniface coins occur when there have been two blank planchets in the press at the same time. The other blank will obstruct the die on either the obverse or reverse side, which will prevent it from having that design on the coin. There are many different variations involving uniface errors. In addition to having a 100% blank obverse or reverse, a coin can be struck off-center, with a blank planchet in the collar which will obstruct one side of the off-center. There are also mated pairs which have a combination of multiple errors which can include a side which is uniface. Finally, there are uniface strikes due to a die cap which adhered to the die, forming itself in the shape of a die and striking blank planchets.

Bonded Coins

Bonded coins occur when the feeder system, which supplies blank planchets to the coin press, malfunctions and jams. When this occurs, a struck coin is not properly ejected and another planchet is fed into the collar and is struck. This struck coin will land on top of the previously unejected strike. These coins will then crush and bond together. This may occur many times as more coins bond.

Coins Struck on Feeder Finger Tips

After a recent tour of the U.S. Mint in Philadelphia, it was discovered that the minting process had changed to some degree. One of the changes was that “feeder fingers” were used during the striking of all denominations of U.S. coins. Prior to this tour, U.S. coins that were struck on feeder finger tips were authenticated and described as being struck on aluminum scrap. Coins from all modern denominations have been discovered that were struck on the tips of these feeder fingers.

Struck Fragments

The blanking press takes the coils of metal strips and punches blanks out of it, ejecting the webbing at the other end. The webbing is cut into small scrap pieces to be melted and recycled. Occasionally a scrap piece will be mixed with the blank planchets and struck by the dies. Struck fragments are rare in the larger denominations. These can be uniface or die struck both sides and are very rare on type coins.

Denomination	Uniface	Die Struck Both Sides

Mated Pairs

Mated pairs involve two individual coins with different errors that were struck together at the same time. Mated pair error combinations can be found in most error types and come in many shapes and sizes. Mated pairs can be overlapped when one of the coins is struck off-center on top of another coin. Another type involves a brockage where a struck coin was perfectly centered on a blank and restruck. Some mated pairs involve a die cap where the cap and brockage coin are discovered together, but this is a scarce find.

The rarest mated pair type involves two die caps (obverse and reverse) where both dies were capped at the same time and both die caps are mated. This last type is extremely rare and there are only a few known examples of mated pairs involving an obverse die cap and reverse die cap. There are several of these mated pairs known on Kennedy Halves including two dated 1976, which is the Bicentennial year. One of the most spectacular mated pairs involve two Barber Dimes, an obverse die cap mated to a reverse die cap and are unique.

Mated pairs can also involve an off-metal where a smaller blank planchet or smaller struck coin was struck on top of a larger coin. This type is extremely rare. The most spectacular pair known is a double struck Franklin Half which was mated to a Lincoln Cent. The Lincoln Cent blank was on top of the obverse of the struck Franklin Half. This pair was then struck together. It is unique.

Transitional Errors

A transitional error occurs when a coin is struck on a planchet from a previous year with different metal composition. The most famous transitional is a 1943 copper cent struck on a 1942 copper blank. 1943 cents were struck in steel because of the copper shortage during World War II. Other famous transitionals include 1965 coinage struck in silver instead of clad.

There are also transitionals struck on blanks for the next year. An example is 1964 coinage in clad instead of silver. Most recently, transitionals were discovered involving the SBA and Sacagawea Dollars of 1999 and 2000. There are eight known 1999 SBA Dollars struck on the brass planchet for the 2000 Sacagawea Dollar, and four known 2000 Sacagawea Dollars struck on a clad planchet for the 1999 SBA Dollar.

Denomination	Off-Metal Planchet	Circulated	AU	Unc	Choice Unc – Gem

U.S. Gold Errors

Major mint errors on U.S. Gold coins are the most prized category of all mint errors. Gold errors are very rare and a few have traded in the \$75,000 to \$100,000 range. Even a broadstruck U.S. Gold coin can easily sell for \$15,000 to \$30,000 compared to a broadstruck Cent, Nickel, Dime or Quarter which all sell for well under \$10. Many serious collectors of Gold Errors have to wait patiently for months and sometimes even years to acquire that one special piece for their collection.

The prices listed here are for common dates in AU-Unc. Better dates and errors that are in gem condition are worth considerably more.

Denomination	Partial Collar	Broadstruck	Clipped Planchet	3% - 5% Off-Center	10% - 15% Off-Center

Indents

An indent error occurs when two blanks are fed inadvertently into the same collar, with one blank partly overlaying on top of the other. When the hammer die strikes this combination, the upper blank will be forced into the lower blank, creating a depression which is shaped similar to the upper blank. A scarce type of indent occurs when a blank intended for one denomination lands on top of a blank from a different denomination.

Die Caps

Die caps are caused when a struck coin sticks to the upper hammer die. Once the coin is struck to the die face, the reverse of the struck coin becomes the new die face. When the next blank is fed into the collar and the strike occurs, the reverse design of the adhered struck coin impresses itself into the new blank. This struck coin is a brockage strike. The coin that adhered to the upper die is known as a die cap. This process repeats itself as more coins are struck by the cap. The greater the number of strikes, the higher the cap metal will be pushed around the upper die shaft. Eventually, the cap brakes away from the die in the shape of a thimble.

Die Adjustment Strikes

Die adjustment strikes are also known as die trials. This error occurs when a coin is struck from the press with very little pressure. When the press is being set up and adjusted, extremely weak strikes occur as the strike pressure reaches its optimum level. These die trials are destroyed after being struck and are rarely found in circulation.

Double Denominations

One of the most expensive, popular, and desired types of errors are the double denominations. This error happens when a coin is struck on a previously struck coin of a smaller denomination. Examples are a cent on a struck dime, and a nickel on a struck cent. The most dramatic are those with considerable design visible from the original strike. There are a few known double denominations with different dates.

Brockages

A brockage error can only occur when there are two coins involved. One of the coins involved will always be a struck coin which has not ejected properly. That struck coin will find its way back between the dies and will be struck next to a blank planchet which was fed into the collar. The image of that first struck coin will be impressed into that side of the blank planchet. The result will be a second coin which has images of the first coin impressed into it. Those images will be pressed into the coin and the image will be in reverse. This incuse sunken image is known as a brockage.

Double & Multiple Strikes

When a blank planchet is struck by the dies, the normal procedure is for the feeders to eject the struck coin out of the collar and into a chute. If there is a malfunction and the struck coin isn't ejected, it may receive a second or third strike by the dies. A multiple struck coin can happen in many ways and have many combinations of errors.

(Since each double and multiple strike can vary from being 10% off-center to 90% off-center, the prices listed below can be substantially more based on the percent off-center and dramatic overall look.)

Off-Center Strikes

Off-center coins are one of the most common and best known types of errors. This happens when a blank which is supposed to be fed into the press, lands in the collar improperly. When this occurs only part of the blank is between the upper and lower dies. When the dies strike the blank, only that part will be struck with a design.

Off-Metals

Off-metal and wrong planchet errors occur when a correctly made blank from one denomination is accidentally fed into a press for another denomination. Examples are a nickel struck on a cent planchet and a cent struck on a dime planchet. The coin struck on an incorrect blank will weigh exactly what the denomination of that blank would have been. An even more dramatic wrong planchet error is a coin struck on a previously struck coin of a different metal.

Counterbrockages

A counterbrockage error involves a cap die and a previously struck coin. When a cap die strikes a previously struck coin, the obverse design from that struck coin will be impressed into the cap. The result will be a design where the cap face will be an incuse brockage. When a new blank is struck by this cap die with an incuse brockage image, the obverse will have a raised and spread image from that incuse design of the cap. This brockage impression is known as a counterbrockage.

Fold-Over Strikes

A fold-over coin is one of the most dramatic types of errors. It occurs when the blank is standing vertically between the dies. During the strike, the force is so great that it bends and folds the blank. These fold-overs can be on-center or off-center, and come in many different shapes. There are a few fold-overs with multiple errors, either with an additional strike or fold-over. Denominations above quarters are very scarce.

Denomination	AU	AU Dated	Unc	Unc Dated
Indian Cent Memorial Copper	\$1,000	\$1,250	\$1,250	\$1,500
Lincoln Cent Memorial Zinc	\$750	\$1,000	\$1,000	\$1,250
Jefferson Nickel	\$2,500	\$3,000	\$3,000	\$4,000
Roosevelt Dime Silver	\$4,000	\$5,000	\$5,000	\$6,000

Washington Quarter Silver	\$4,000	\$5,000	\$5,000	\$10,000
Washington Quarter Clad	\$3,500	\$4,000	\$4,000	\$5,000
State Quarter	\$4,000	\$5,000	\$5,000	\$7,500

Mint Error News Price Guide

Martha Washington Test Pieces

There is one set of a Dime, Quarter and Half struck by Martha Washington dies that are permanently housed in the Smithsonian Institute, embedded in blocks of lucite. According to United States Pattern and Related Issues, by Andrew W. Pollock III, “the only trial pieces purported to have survived metallurgical testing in 1965 were the Dime, Quarter Dollar, and Half Dollar equivalent strikes in copper-nickel clad over copper.”

Mike Byers’ discovery of the Martha Washington Test Piece on a copper-zinc Cent planchet struck 10% off-center with a uniface reverse was a front page Coin World article on August 7th, 2000.

Denomination	Unc	Choice	Gem
Martha Cent	\$4,000	\$5,000	\$6,000
Martha Nickel	\$4,500	\$6,000	\$7,500
Martha Dime	\$7,500	\$10,000	\$12,500
Martha Quarter	\$5,000	\$7,500	\$10,000
Martha Half Dollar	\$5,000	\$7,500	\$10,000
Martha Dollar (SBA Planchet)	\$10,000	\$12,500	\$15,000
Martha Dollar (Sac Planchet)	\$6,000	\$7,500	\$10,000

1.	1978-S Roosevelt Dime PCGS PROOF-69	\$4200.00
	Unique-Struck on Philippine 10 Sentimos plan. WT: 2 grams-70% CU, 18% ZI, & 12% NI. I purchased this coin directly from the party who removed it from a U.S. 1978 Proof Set. The coin is frosted obv/rev, & is the only known PROOF example of this off-metal coin.	
2.	1979 Canada cent PCGS MS-64	1950
	Deep Die Cap struck on 5.6 gm. Copper-Nickel plan (Tag reads). A Dramatic Off-Metal Deep Die Cap error on an unidentifiable world coin planchet.	
3.	1983 Israel Medal NGC MS-67	1500.00
	On Two Bonded Canadian 50¢ (Tag Reads). Jerusalem of Gold Medal (Tag Reads). Large, Deep and Unique in new NGC thick holder with NGC photo certificate.	
4.	2005 Malaysia 1 Sen PCGS MS-65	550.00
	Struck on large 10 Sen plan (TR). Done at Mint. If this was on a U.S. coin, the value would be \$25,000+ (Buy both 2005 Malaysia 1 Sen & 10 Sen coins @ \$1,000)	
5.	2005 Malaysia 10 Sen PCGS MS-64	550.00
	Struck on large 20 Sen plan (TR). Done at Mint. If this was on a U.S. coin, the value would be \$25,000+ (Buy both 2005 Malaysia 1 Sen & 10 Sen coins @ \$1,000)	
6.	2006 Chile 50 Pesos PCGS MS-65	1900.00
	Struck 20% Off-center on 1985 Mexico 5 Peso coin. UNIQUE! This 24 year-old 1985 Mexico 5 Pesos coin was struck in 2006 20% off-center with Chile 50 Pesos dies. Both dates (1985 and 2006) show. Probably a helped coin, but still unique & dramatic. Comes with normal Chile 50 Pesos coin for comparison.	
7.	2007 Malaysia 1 Sen PCGS MS-64	220.00
	Double Struck Deep Obverse Die Cap + Full Brockage Reverse. Deep Dramatic, and Pretty. Comes w/normal 1 Sen coin.

COINLINK™

Your Source for Daily Numismatic News and Resources on the Web

Search:

CoinLink operates on one simple principle...

To provide the numismatic community with access to the “best” numismatic information, news and resources on-line.

CoinLink® was started in 1995 by Anteater Design Group Inc., and is headquartered in Longwood, Florida (just northeast of Orlando).

For over 12 years we have been proud to operate the most popular and comprehensive numismatic directory on the web, referring collectors to thousands of numismatic sites, and providing unbiased access to resources that are informative and relevant to collectors and dealers alike.

The reason for our success has been a willingness to listen to our users suggestions and provide innovative solutions to aggregating the diverse and ever changing sources of numismatic information available.

CoinLink does not buy or sell coins. We have NO commercial or financial interest in any company that does. We do NOT compete against our advertisers.

Rather, our goal is to provide a platform from which dealers and collectors can find each other and stay informed about what is happening within the marketplace and within the hobby.

As we move into our 12th year of operations, we want to thank all of the users, supporters and sponsors who have made CoinLink what it is today, and who continue to shape the direction in which CoinLink will grow in the future.

Scott Purvis - President
Anteater Design Group Inc.

Coin Auctions Help

U.S. Coin Information - Guides - News - Forum

Coinauctionshelp.com is not a coin auctions website, but help for United States coin collectors who do buy coins at online auctions, but we are still much more than that. Besides being the fastest growing coin site on the web, we offer coin guides, facts, news, pictures, price guides, third party grading information, coin site links, and targeted ebay coin auctions for every major U.S. Coin series minted. If you can't find the coin or information you need, send us an email and we will send it to you and add it to our site. Let us do the research for you!

Targeted Coin Links:

First, let's talk about our targeted ebay coin auctions. Simply put, we do the ebay coin auction search for you. We spent months building links at ebay for every U.S. Coin series, and often for each date in the series. We did our best to eliminate irrelevant coin auctions so the user can click a link and go directly to only the coin type or date they wish to buy.

Although, our searches are not perfect because some coins are so rare that they are not listed on ebay often, and there are many sellers on ebay that use keyword spamming in their ebay auctions. However, most of our searches have eliminated this problem, so you don't have to spend hours trying to find the exact coin you need for your collection.

Plus, the sales generated from these links allow us to continue providing all the free information on this website.

If a certain date is not listed on ebay after you click a link, it means one is not listed at the present, but might be in the near future. So always check back often so you don't miss out on an opportunity for that rare and valuable coin!

Facts And Pictures:

We offer a page for every U.S. Coin series. A list of the page links can be found by clicking the Coin Facts tab on the navigation bar. Our coin facts pages offer the collector large pictures with important features pointed out so the mint mark, designer initials, denomination, and other design elements to allow for proper identification of coin type and varieties of that coin series. Also, each page contains important facts about the coin type, a list of rare and valuable dates for "cherry pickers", a price guide and the targetable links we mentioned earlier.

We add new information to these pages often, and at site visitors request. So check back to see what's new or ask to be added to our email list and receive email updates and contained in our Newsletter.

Coin News And Guides:

Although, we offer the latest U.S. coin news on our homepage, we don't limit the reporting to just what everyone else reports, but we find news that other site ignore or don't know about yet. Often, we will have a news articles posted on our site before the latest issue of Coin World comes out!

We offer news for latest auction sales, mint error discoveries, third party grading services, and offer guides on featured coin types, mint errors, fake coins, cleaning and identifying cleaned coins, grading coins, and many more guides to help the collector be better informed. Basically we report on the major sales and finds, and on the obscure news which allows us to offer our readers news and guides they can't find anywhere else.

In conclusion, this is about us in the brief, but in no way describes what we do completely as we our always updating and adding to coinauctionshelp.com to make the coin collector's hobby more informative, exciting and safe. We gladly answer questions and take suggestions because only you, the visitor, know what makes a good coin site, a great coin site.

MINT *ERROR* NEWS GLOSSARY

What is a Missing Edge Lettering mint error?

A mint error has recently been discovered on the new Washington Presidential \$1 Coins. These coins inadvertently left the United States Mint without edge-lettering on them. The inscriptions 'In God We Trust,' 'E Pluribus Unum,' as well as the mint mark and year are absent from these errors. This specific NGC certified piece was signed by the Director of the U.S. Mint and is the cover coin of Issue 19 of Mint Error News Magazine.

MINT *ERROR* NEWS GLOSSARY

What is a Two-Headed coin?

There are approximately thirty genuine two-headed or two-tailed coins that have been authenticated by ANACS, PCGS and NGC. There are only four known "Two Tailed" U.S. coins: three Quarters and one Dime. One of the Quarters recently sold for \$80,000. Two world coins are Canadian Copper Cents that were struck with two reverse dies and authenticated by PCGS and were on the cover of the October 1, 2001 issue of Coin World.

Fred Weinberg & Co.

Dealer in Major Mint Error Coins & Currency

fredweinberg.com

BUYING MAJOR ERROR COINS & CURRENCY

If you have a single major mint error coin, either a recent issue or an older type coin, or 1,000 Off-Center Cents, please contact us. We stock over 60,000 Major Mint Error Coins and constantly need to purchase Major Error Coins for our clientele (please note that we do not deal in or buy Die Varieties, Damaged Coins, Doubled Dies, Filled Dies, or Die Cracks).

We do buy Major Mint Errors - such as Off-Center, Off-Metals, Double Strikes, Clad Layers missing, Die Caps, Double Denomination, etc.

Because of the many differences in each Error Coin we request that you send scans of your coin(s) to us for our examination and firm offer.
